Title | The 4th Asian Conference on Meteorology (ACM) 2024 jointly organized with
The 3rd Workshop on the A3 Foresight Program

— History and Objectives

The Meteorological Society of Japan (MSJ), Chinese Meteorological Society (CMS), and Korean Meteorological Society (KMS) have been organizing a joint conference on meteorology since 2005. The purpose of the joint conference is to enhance the development of atmospheric science, promote

**Abstract submission will
open in April 2024.**

international academic exchange, organize regional activities in the field of meteorology and create an academic exchange platform for meteorological societies of China, Korea and Japan. It is also intended to enhance the friendship among the meteorologists of the three countries.

After the sixth conference held in China in 2013, the three societies agreed on continuing the activity titled *the Asian Conference on Meteorology (ACM)*, which could involve researchers outside of the three countries. The first ACM was held in Kyoto, Japan in October 2015, followed by the second conference in Busan, Korea in October 2017, and the third virtual conference organized by China in November 2022. Here we would like to inform you that the fourth ACM will be held from November 18 to 19, 2024 in Tsukuba, Japan.

The coming conference will be jointly organized by the A3 Foresight Program “Networking Climate Change Research Hubs for Promoting Future Earth Over Northeast Asia”, which was launched in August 2022. The A3 Foresight Program is supported by Japan Society for the Promotion of Science (JSPS), National Research Foundation of Korea (NRF), and National Natural Science Foundation of China (NSFC) with the aim of advancing leading-edge research on climate change relevant to the scope of Future Earth, and establishing a regional research hub in Asia. This conference also serves as the third workshop of the A3 Foresight Program.

The coming conference focuses on the scientific subjects on atmospheric and climate science including the focus of A3 Foresight. The organizing committee would like to have as many participants as possible from the three meteorological societies and the A3 Foresight members, and hope especially many early career scientists to attend the conference. The Call for the Abstract submission will start in April, 2024, followed by the Registration process via the conference web site.

— Important Dates and Deadlines

First circular	February, 2024
Abstract and registration open	April, 2024
Abstract and registration close	The end of July, 2024
Second circular	August, 2024
Final Agenda	October, 2024

— International Organizing Committee (IOC)

MSJ Meteorological Society of Japan

Prof. Kaoru Sato, The University of Tokyo

Prof. Masahiro Watanabe, The University of Tokyo

Prof. Toshihiko Takemura, Kyushu University

KMS Korean Meteorological Society

Prof. Seon-Ki Park, Ewha Womans University

Prof. June-Yi Lee, Pusan National University

Prof. Dong-Hyun Cha, Ulsan National Institute of Science and Technology

CMS Chinese Meteorological Society

Prof. Yongyun Hu, Peking University

Prof. Jing Li, Peking University

Mr. Wenquan Liu, General Secretariat of CMS

— Local Organizing Committee (LOC)

Prof. Masahiro Watanabe, The University of Tokyo

Prof. Yukiko Imada, The University of Tokyo

Prof. Toshihiko Takemura, Kyushu University

Dr. Izuru Takayabu, Meteorological Research Institute, Japan Meteorological Agency

Prof. Tomoki Miyakawa, The University of Tokyo

Prof. Yu Kosaka, The University of Tokyo

Prof. Hitoshi Matsui, Nagoya University

Dr. Michiya Hayashi, National Institute for Environmental Studies

Dr. Satoru Okajima, The University of Tokyo

Dr. Shion Sekizawa, Meteorological Research Institute, Japan Meteorological Agency

Dr. Yoko Yamagami, Japan Agency for Marine Earth Science and Technology

— Accommodation

Accommodations and Tourist Attractions

The Hotel JAL City Tsukuba is directly connected to Tsukuba International Congress Center (EPOCHAL TSUKUBA).

The Daiwa Roynet Hotel TSUKUBA (1 min walk from Tsukuba Station A5 Exit), The hotel nikko tsukuba (2 min walk from Tsukuba Station A3 Exit), and The Hotel Grand Shinonome (8 min walk from Tsukuba Station A5 Exit) are about 10 minutes' walk from Tsukuba International Congress Center (EPOCHAL TSUKUBA), and close to Tsukuba Station.

Tsukuba (so-called Tsukuba Science City) is home to 300 of national and other research and educational institutions, playing the role of a hub for scientific research in Japan.

The following brochure of Tsukuba Tourist Guide may help you find tourist attractions in Tsukuba.

Tsukuba Tourist Guide (<https://ttca.jp/ttca21/wp-content/uploads/2022/12/TSUKUBAMEGURI.pdf>)

For more information on accommodations and tourist attractions, please visit the website of Tsukuba Tourism and Convention Association (<https://ttca.jp/>)**.

** Google Translate is available. At the top of the side menu, there are national flag icons. Please click on the flag icon of your choice.

Visa

For visa-related information on a foreigner's entry, please visit the website of the Ministry of Foreign Affairs of Japan (https://www.mofa.go.jp/j_info/visit/visa/index.html).

For individuals requiring letters of invitation to obtain travel visas:

Invitation letters will be provided once registrations are accepted. Registration will open in April.
